Hi Gary,

If you haven't already, can you check the engineering details? Russ probably doesn't know enough to confirm that they are all correct (and I certainly don't). Should make a nice paper!

Thanks, Dan.

This looks great, Russ. Thanks to everyone for such good work!

Gary

Mission completed - thank you and job well done by all. Here's the final proof - should be in press going forward and I responded to the AQ1. All set. Final product looks great in my humble opinion. Russ
